

Honorable Steve Yoder

Page 2.

In addition to her meeting with Treasurer Gallagher and Chief Deputy Lautner, Ms. Cypher went to the Office of Undersheriff Kiessel seeking his assistance in an attempt to pay the now, past due County Credit Card. It should be noted that Ms. Cypher made three public statements at the regular commission meeting less than 24 hours prior, stating the credit card bill had been paid.

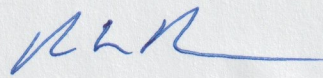

Ms. Cypher's false public comments regarding her actions shows a wanton disregard for the management of the public dollar. Further, this raises serious concerns about her ability to perform her responsibilities in a transparent manner moving forward. The public demands nothing less.

Therefore, I request a formal investigation to address whether these actions constitute a violation of county personnel policies, financial mis-management and or ethical codes to address but a few.

I thank you in advance for your prompt attention to his manner. I look forward to your response within 10 days outlining the next steps for this investigation.

Sincerely,

Rick Robbins, Commissioner, District 1
